## TRACTOR HYDRAULIC FLUID

**Mecha Tool Tractor Hydraulic fluid** for tractor transmission and hydraulic oils are unique oils developed with premium additives and bases to meet the exact needs of tractors utilizing tractor hydraulic fluid.

**Mecha Tool Tractor Hydraulic** has been performance tested both in the lab and in the field, and validated to meet the increased demands for performance and protection of transmissions and hydraulic systems.

**Benefits:**

- Reduces wet-brake chatter and ensures high braking capacity.
- Superior wet-clutch performance, smoothes clutch operation.
- High tolerance to water contamination without sludge formation, which could cause filter clogging and hydraulic system malfunction.
- The anti-oxidation capability allows the oil to work properly at high temperatures, helping keep transmissions and hydraulic system parts cool and clean.
- Provides protection against rust and corrosion, particularly during low-use periods.
- Anti-wear additives keep gear and bearing wear to a minimum.
- The extreme-pressure formulation develops a durable fluid film, which helps prevent metal-to-metal contact.

**Mecha Tool Tractor Hydraulic Fluid** is designed to satisfy the tractor hydraulic fluid (THF) performance requirements of:
