

Aceite de tractor hidraulico J20A/B Mecha-Tool® J20A/B Tractor Hydraulic Fluid

J20A/B TRACTOR HYDRAULIC FLUID

Mecha-Tool® Universal Tractor Fluid (UTF) J20A/B is a multi-purpose hydraulic and transmission fluid specifically formulated for older agricultural and construction equipment, primarily manufactured prior to 1990. It meets the John Deere J20A/B specification (commonly referred to as J20A/B plus) and is designed to lubricate hydraulic systems, transmissions, wet brakes, differentials, and PTO systems in legacy machinery. This product is intended for applications where newer specifications such as J20C or JDM 20D are not required.

Applications Recommended for use in:

Hydraulic systems
Transmissions
Wet brake systems
Differentials
Power Take-Off (PTO)

Typical equipment:

Older agricultural tractors
Legacy construction equipment
Machinery requiring J20A/B -type fluids.

Key Performance Benefits:

- ✓ Effective anti-wear protection for hydraulic and transmission components
- ✓ Anti-foam performance for stable system operation
- ✓ Rust and corrosion inhibitors for extended component life
- ✓ Smooth wet brake performance with reduced chatter and noise
- ✓ Good thermal and oxidative stability
- ✓ Reliable lubrication under heavy-duty operating conditions

Suitable for Use:

Mecha-Tool® Universal Tractor Fluid (UTF) J20A/B is suitable for applications requiring the following OEM specifications:

- J.I. Case: MS-1210 (TCH), 1204, 1205, 1206, 1207
- John Deere: J20AFord: M2C48-B
- Caterpillar: CAT TO-2
- Massey Ferguson: M-1127, M-1110
- White Equipment: Q-1766, Q-1722

Important: Always verify the equipment manufacturer's recommendation before use. This product is not intended for applications requiring newer specifications such as J20C, JDM 20D, or higher-performance UTF standards.
