REIKER ND MOTOR OILS are blended from well –refined petroleum base oils and may be used in older, worn engines with high oil consumption.

REIKER ND MOTOR OILS are intended for use where equipment manufacturers recommend straight mineral oils without detergent/dispersant additives: SA Motor Oils; GL-1 Gear Oils; general machine oils; low-pressure, non-critical hydraulic applications; drip oils; spindle oils and light duty compressors.

REIKER ND MOTOR OILS are not recommended for new or newly rebuilt engines or any late model engines equipped with hydraulic valve lifters.
